Honorable Judge Kollar-Kotally,

It is my view that the proposed U.S. vs. Microsoft settlement before you is flawed, and I urge you to reject it. Microsoft has benefitted enormously from its past monopoly powers, as every court has concluded.

This settlement allows Microsoft to retain those ill-gotten benefits.

Furthermore, there's no means for ensuring that Microsoft will desist from engaging in anti-trust violations in the future. I feel that it is in the best interest of the public to oppose the proposed final judgment.

Sincerely,

=====
